## NATO Pledges Defense Of Berlin

OSLO, Norway (AP) — North Atlantic Treaty Organization foreign ministers promised today to preserve the freedom of the 2½ million residents of West Berlin and to meet the Communist bloc's challenge throughout the world.

In a communique ending their three-day spring meeting, the ministers expressed confidence that the combined resources of NATO are adequate to prevent Communist aggression.

"In the world as it is today the unity and strength of the Atlantic alliance is essential to peace and the survival of liberty," the communique said.

"Its collective resources—moral and material alike—are fully adequate to this task. Confident in their strength, in the will of their

peoples, and in the truth of the ideals they uphold, the 15 Atlantic nations dedicate themselves anew to building a world free from the false doctrine of continuing and inevitable conflict."

This represented a rejection of Soviet Premier Khrushchev's doctrine of so-called peaceful coexistence.

The communique stressed that the NATO countries are willing to negotiate just settlements of international problems but do not intend to be bullied.

The communique made no specific mention of Laos, the Congo or Cuba but referred in general terms to world trouble spots.

The communique took an unequivocal stand in support of the people of West Berlin who live 110

miles behind the Iron Curtain.

The ministers also declared that American, British and French rights to maintain troops in West Berlin could not be nullified by the Soviet Union alone. The Soviet Union is expected to sign a separate peace treaty with Communist East Germany soon, giving the East German regime control of the Allied supply routes to West Berlin.

The communique quoted the NATO declaration of Dec. 16, 1958, to emphasize the alliance's determination to stand fast on Berlin.

The Atlantic ministers also declared the related problems of German reunification and Berlin can only be solved on the basis of self-determination of the German

people, meaning a free election.

The ministers expressed hope that the prolonged nuclear test ban talks in Geneva and general disarmament negotiations this summer will produce agreements based on effective international control.

Stress was placed on the importance of full consultations between the allies.

The ministers asked the NATO Permanent Council to study all aspects of the military structure of the alliance "with a view to improving its deterrent and defensive strength."

Completion of the communique was carried out quickly to allow some ministers to rush off to Geneva.

### Five Americans Aboard

## French Plane Crash In Sahara Kills 69

ALGIERS (AP)—A French airliner carrying 69 persons crashed in the Sahara today and Air France said there were no survivors.

At least five Americans were aboard.

Search craft found the wreckage smashed into lonely sand dunes of the Sahara about 75 miles north of the oil field of Edjele.

The plane had last reported at 1:10 a.m. when it was directly over Edjele.

An Air France spokesman said the mother, wife and three children of Alan Lukens, U.S. charge d'affaires in Bangui, Central African Republic, were aboard the four-engine plane.

Names of the passengers and crewmen were not available, but the Lukens were known to be aboard, he said. U.S. Embassy officials said Lukens apparently stayed in Bangui while his family took a vacation trip.

The Air France four-engine Super Constellation was bound from the Congo Republic to Paris.

Air France did not immediately

announce a complete list of passengers. There were 61 passengers and 8 crew members aboard.

The plane went down in a desolate area known as the "Erg Oriental" near the joining of the Tunisian-Algerian and Libyan frontiers. Its first destined stop in France was Marseille.

## 4 Teen-agers Hurt When Truck Upsets

Four teen-agers were treated at Youngstown South Side Hospital for minor injuries and released following a pick-up truck mishap on Kirk Road, one mile east of Rt. 45 near Canfield, at 10:20 a.m. Tuesday.

Injured were George A. Woods, 18, of North Jackson, driver of the truck, with multiple abrasions and contusions of the body; David Platten, 19, of North Jackson, lacerations of a hand; Nancy Harden, 18, of Newton Falls, multiple abrasions and contusions of the body, and Beverly Johnson, 17, of Lake Milton, multiple abrasions and contusions and lacerations of the scalp.

Patrolmen said Woods lost control of the eastbound truck, causing the vehicle to go off the right side of the road, across to the left side and then back across again to the right side and overturn in a ditch.

The truck received considerable damage, patrolmen said. Woods was cited for unsafe operation.

Samuel Berger, 24, of Rittman, was cited by patrolmen for failure to stop in an assured clear distance after his panel truck struck the rear of a truck-trailer operated by Jack T. Capatina, 32, of Fort Wayne, Ind., on Rt. 14, one mile west of Rt. 46, at 7:30 a.m. Tuesday.

The Patrol said Capatina had stopped his truck for a school bus when the accident occurred. Minor damage was sustained by the Capatina truck, while Berger's truck was damaged considerably.

A car and a truck-trailer were involved in a mishap on Rt. 62, two miles west of Salem, at 9 a.m. Tuesday.

Patrolmen said Lucius J. Hoppes, 86, of 1651 E. State St., attempted to make a left turn with his westbound car and was sideswiped by a passing truck trailer operated by William McGraw, 31, of Beaver Falls, Pa.

Dr. Tom Dooley was the youngest person in the history of the U.S. Medical Corps to receive the Legion of Merit — Family Weekly May 13th issue with the Salem News.

## Ohio Budget Bill Vote Is Delayed

Dems Oppose Slash In DiSalle Measure

COLUMBUS, Ohio (AP)—Minority Democrats, contending that Republicans are curtailing important state services by proposing to cut almost \$25½ million from the 1961-63 state budget, are battling back with amendment proposals.

But there is little likelihood they will have much success with a GOP majority determined to avoid any move toward increased taxes. About the only effect, apparently, will be to delay a House vote on the budget bill.

Republicans had hoped to bring the bill to a vote Thursday. Now it seems likely it won't come up until early next week. The GOP majority is expected to speed it along to the Senate, also Republican-controlled, where further fund cuts may be attempted.

At the moment, the measure still is before the House Finance Committee. Democrats offered nearly a dozen amendments Tuesday night, most designed to restore some of the fund cuts, particularly in the departments of welfare and mental hygiene-correction. All were beaten down by the Republican majority.

However, committee members did approve—without dissent—adding \$200,000 for the two-year budget period for training those who are out of work because of automation, \$150,000 for a House-approved safety center at Ohio State University and \$885,000 for state universities to cover deficits from charging the same tuition at branch campuses as at the main campus.

Republicans succeeded in taking out almost \$3 million earmarked for adding 300 additional highway patrolmen. The committee added \$750,000 to reimburse counties for child welfare service. This was authorized by the 1959 legislature, but no funds were provided.

Democratic Gov. Michael V. DiSalle asserted Tuesday that cutting about 1.22 per cent from the \$2,068,000,000 he asked to run the state government for the next two years would:

Force the Department of Mental Hygiene and Correction to let 400 employees go, trim mental hospital patient support by 35 cents a day, chop \$3 a month from Aid to the Aged payments as well as reduce payments to crippled or dependent children and other such persons getting state aid, and seriously hamper the work of the departments of finance and industrial and economic development.

### ROBBERY DETERRED

COLUMBUS, Ohio (AP)—State Treasurer Joseph E. Ferguson has installed two cameras in the cashier's section of his office in the hope of deterring any robbery attempt. The cameras, rented for \$20.50 a month, are intended to take pictures of persons at the two cashier windows when cashiers activate electronic switches.

No unusual motion is needed to activate the switches, Ferguson said. The treasurer said he believes it is the first installation of its kind in any treasurer's office.

### Wounded During Chase

## FBI Nabs Akron Gunman at Dover

CLEVELAND (AP)—Richard G. Ruip, Akron gunman captured following a high-speed chase in which his car was riddled with shotgun blasts by FBI agents in Cuyahoga County jail here today under \$100,000 bond.

Ruip, 24, demanded a preliminary hearing when arraigned before U.S. Commissioner H. A. Horn on charges of bank robbery and unlawful flight to avoid prosecution for burglary shortly after his capture Tuesday afternoon near Dover. Horn set the hearing for May 18 and ordered Ruip held under \$50,000 bond on each charge.

Ruip, who had escaped from authorities three times since last September, was charged with the \$5,200 holdup of the Waynesdale branch of the Peoples Trust & Savings Co. near Fort Wayne, Ind. April 17 in a warrant obtained by the FBI at Indianapolis Tuesday.

He was held on charges of breaking and entering, automobile theft and carrying concealed weapons when he dug his way out of the Stark County jail at Canon April 11.

Ruip was wounded in the little finger of his left hand during the

## Fulbright Raps 'Idiot' Shifting of Diplomats

WASHINGTON (AP) — President Kennedy is on notice that there is some potentially annoying friction in the relations of his State Department with the Senate Foreign Relations Committee.

If Kennedy needed any new evidence of this, he got it Tuesday with the denunciation by Chair-

J. William Fulbright, D-Ark., of what the senator called the "idiotic policy" of shifting ambassadors around.

The system of rotating diplomats from one post to another long has peeved Fulbright and other members of the committee. They have complained that an ambassador hardly gets settled down to his job before he is sent packing in a couple of years to a new and possibly unfamiliar assignment.

Since Kennedy took over the presidency there has been a seemingly endless stream of nominees parading before the committee. Kennedy has made more than 50 ambassadorial appointments. All but about a score went to career diplomats.

About 40 ambassadors appointed by former President Dwight D. Eisenhower are still on the job. While some of them will stay put, others obviously will hop the diplomatic merry-go-round.

While Fulbright's complaint against these transfers is not new, its sharply worded form seemed to indicate there is more irritation with State Department policies involved than meets the eye. Associates know that the committee chairman — who was reported considered and passed over for appointment as secretary of state — has not been pleased by some of the diplomatic nominations.

## U.S. Lowlands Hit by Floods

Thousands Flee, But Worst Seems Over

By The Associated Press  
Damaging spring floods poured across lowlands of the nation's midsection today, bringing more misery and discomfort to thousands.

To many in the river towns, it was the seasonal back-breaking job of fighting the rampaging waters.

The worst flooding appeared in southern Illinois, Missouri, Indiana, Kansas and Kentucky. Thousands were homeless. Some communities were isolated. There was fear in some areas of typhoid fever from contaminated water. Some major and many secondary roads were closed. Business slowed in many of the flood-stricken towns and halted in some.

But there were a few bright spots in the murky water picture. No rain splashed across the drenched flood belt and fair weather was the immediate outlook for most areas. The worst appeared over in some sections.

In Ohio and Oklahoma, many streams and rivers were bank full but the threat of major flooding appeared easing.

As the rains halted in the midlands, soaked with heavy downpours for four or five days, stormy weather spread into eastern sections of the country.

Rain, hail and strong winds Tuesday hammered areas in New York, Virginia, Vermont, Florida, Pennsylvania, North Carolina and the District of Columbia. The gusty winds caused property damage in some places.

Thousands of persons in river towns in the flood-stricken sections joined in the fight to stem the surging waters.

Soldiers, sailors, civil defense workers, school boys and women worked to hold back the muddy waters from lapping into the lowland homes or spreading into business districts. The Red Cross and the Salvation Army were at the flood scenes to give aid and comfort and shelter.

Thousands of acres of farmland are inundated. In Illinois, the Kaskaskia River, which is fed by many streams in the central part of the state, burst through weakened levees near Vandalia. The water spilled over more than 40,000 acres of land, including 700 acres of the Illinois State Penal Farm. Several families along the river were evacuated. Several other rivers in southern sections were on the loose.

## In the Event Of a Tornado

Monday's severe windstorm wasn't the first tornadic type disaster to hit Columbiana County. Nor is it apt to be the last. Local residents still recall the windstorms that caused so much property damage in the Salem area several years ago.

In this connection, the Red Cross offers timely advice that could be the means of saving your life in the event of a tornado or severe storm:

1. The safest place is a storm cellar, cave, or an underground excavation with an air outlet.

2. In open country — Move at right angles to the tornado's path. If there is no time to escape, lie flat in the nearest depression, such as a ditch or ravine.

3. In city or town, get off the streets, preferably into a reinforced building. Stay away from windows!

4. In homes, the southwest corner of the basement usually offers greater safety. Open north and east windows to equalize pressure. If time permits, turn off electrical equipment and fuel lines.

5. In schools or other buildings, seek shelter in basement or stand against wall on lower floor. Stay out of gyms or auditoriums with large, unsupported roofs.

6. In factories or plants, post lookout to warn of storm's approach, when tornado alert is received. Shut off electricity and fuel lines. Move workers to section of building offering greatest protection.

## Still the Best Bet to Win

Deep thought is being given to a question asked frequently since the failure of the anti-Castro invasion of Cuba:

Can the United States cope with the thing that Castro represents? Is a representative democracy any match for a ruthless dictatorship which is able to bend all circumstances to its purposes?

No American should answer the question without deep conviction about the weaknesses of dictatorship as well as the strength of representative democracy. And of the two sets of thoughts, the more important is the first — the weaknesses of dictatorship. They should not be underestimated.

Americans know all there is to know about the weaknesses of their own government. These have been revealed in sad succession since the time of George Washington.

Each new administration has brought its own set of weaknesses with it, and the Kennedy administration is no exception. It is groping to find a way out of the adversity strewn in its path. Its young men are growing older in a hurry, and some of its older men are proving they have grown no smarter with the passage of time.

PRESIDENT KENNEDY and his appointees and their curiously composed political party, which is a coalition of irreconcilable elements, will be with us at least four years. They will find their own way of doing things by trial and error as all governments in this country have done before them.

Whether this will turn out to be good, bad, or mediocre is indeterminate. But the Kennedy people will have their chance and they're on their way.

They are governing in a pattern that has been successful in the past, despite short-

comings. But their best bet to win is the fact they are opposing a system with a congenial weakness.

All dictatorships come to grief eventually on the arrogance of human beings who are allowed more power than they are capable of using wisely.

It is like the threadbare aphorism that all of us have heard about government—that the best kind would be a benevolent despotism, but there are no benevolent despots. Despotism always turns into tyranny.

EVENTUALLY, the dictator becomes a tyrant. He imposes his will and his ideas. His contemporaries learn to live in fear of his whims and caprices.

He lives in fear of being overpowered by his enemies, so he destroys them. Then he destroys his friends, lest they turn into enemies. And ultimately he destroys his usefulness as the head of a government, and that in turn weakens his country.

Every mistake he makes in thought is perpetrated in action because he cannot be overruled. With all criticism barred, he loses perspective and becomes his own expert. And with his life dependent on his political survival, he gets rid of all potential successors, thus guaranteeing a state of political chaos when his death occurs.

These are the weaknesses of dictatorship. They are the weaknesses that have discredited all dictators.

They are the weaknesses that made it necessary for human beings to write constitutions and take power out of the hands of despots.

The weaknesses are still there, gnawing at the vitals of all dictatorships, not excluding the Soviet Union and certainly not excluding its newest and smallest outpost, the dictatorship of Fidel Castro in Cuba.

## Pure Cream For Missile Makers

No one could have hit a sourer note for U.S. taxpayers than Air Force Maj. Gen. William T. Thurman's Congressional testimony that the missile program is being milked by organized labor.

Coming on top of mounting evidence that organized management has been preying on the public in some areas of industry with price collusion tactics, the general's testimony before the Senate Permanent Subcommittee of Investigations under John L. McClellan of Arkansas makes taxpayers feel like stopping payment on their April 15 balance-of-payment checks.

WHAT HAS HAPPENED is a familiar story.

The government has been in a hurry about missiles. It has been at the mercy of the kind of unionism that believes in making hay while the farmer isn't looking. Gen. Thurman has told about dozens and hundreds of strikes at operational sites and test sites. About half of the last time happened at Cape Canaveral. The unions have been pouring it on to get what they want.

More than 10,000 man-days have been lost so far this year—and they have not been lost because peonage was being practiced. Electricians and plumbers on overtime have been knocking off as much as \$700 a week.

## Wide-Awake Time Down South

All is fair in love, war and legislative issues. The word from Washington is that the minimum wage bill which the Kennedy administration wanted was pressured through the Senate and House. It had been defeated in the House on a previous show-down.

There is nothing wrong with pressure. That's the way most controversial legislation is passed, whether it's in Washington, the state capital, or a city council. But it is to say there's something fishy about pressure used to the disadvantage of northern states.

The Deep South has no use for minimum wages in low-pay industries, and it was Deep South votes that joined "Deep North" votes to block a minimum wage bill in the House last March. The strategy was first to defeat the Kennedy administration's watered-down bill by a narrow margin, then to join forces to pass a substitute bill unacceptable to the Kennedy administration.

How did it come about that so many southern gentlemen changed their minds between last March and this May? The word from Washington is that federal

judgeships were one powerful instrument of persuasion. Another instrument of persuasion is evident in the bill, itself.

The southern gentlemen caused to have taken out of the bill certain categories of employment they did not think should have been in it, like tobacco processors and cotton gin employees. That made it dandy as far as they were concerned, because there are no cotton gin employees and tobacco processors in the north.

The only thing remaining to be done to make northern employers ask for a law to outlaw the playing of "Dixie" would be for those wide-awake boys down south to figure out a way to set up his competitor in a new southern location using cotton-gin and tobacco processing employees to make widdits under some hocus-pocus definition of job-rating.

The best reason for not monkeying with more and higher minimum wage coverage was an already high rate of unemployment among the marginally employable. The next best reason, as things have turned out, was to keep southern employees from preserving low wage scales at the expense of northern employees.

## Who Do They Think I Am...Superman?

## Making Haste Slowly

By RAYMOND MOLEY

And now the first hundred days of the Kennedy regime have passed into history and almost everyone who has the privilege of writing in magazines and newspapers has duly noted the fact and has summarized pluses and minuses. Now there is a moment for reflection.

There are circumstances, to be sure, under which a great deal can be done in a short time. For example, when divine omnipotence was the moving force, the world was made in a few days.

I surmise that most people now regard the use of the word "days" in Genesis as merely symbolic and that the task of creating this globe on which such strange and erratic people live and quarrel was really accomplished only after some millions of light years.

Or there are times when plans are meticulously made which require only a final touch, as when Hitler conquered Poland.

After all, the chance of achieving something wonderful in 100 days, measured by the tests of history, was only 50-50. Napoleon failed. Franklin D. Roosevelt succeeded.

At any rate, Mr. Kennedy did

better than the Emperor of France. He is still in office.

It all goes to show that an individual may be a wonderful candidate and something quite different as an executive.

When the Kennedy-Nixon debates were shown, the public, or at any rate a critical part of the public, got the impression of a race between the hare and the tortoise. The tortoise didn't win as in the fable. He lost.

NIXON LOST two kinds of voters. There were the eager anticipators who, while not quite clear about what they wanted, yearned for something different.

Then there were the die-hard conservatives who believed that Nixon should attack everything that has happened since 1900 and promise to repeal it. These people cooled off and their indifference probably cost Nixon the election.

Now as we look back at the campaign it must be granted that Nixon, after nearly eight years at the center of things, realized that there were no easy-to-take capsules which would frustrate communism, eliminate economic fluctuations, provide everyone with every want and

double the rate of economic growth.

And being the man that he is, he spoke with care and responsibility.

The new President found it easy to pour new appointments into the hopper with incredible rapidity. After eight years of Republican control, there are always plenty of unemployed Democratic statesmen.

Now, as we consider the early behavior of some of those who were selected in haste, we must realize that several have been misfits. And no one is more aware of that than the man who appointed them.

In the Cuban affair, certain individuals, accustomed only to the quiet of a professor's study or a law office, found themselves managing a very difficult quasi-military operation. And their blunders are written for all to see.

SO FAR as Congress is concerned, there should be no criticism for its inaction. It has been doing exactly what the makers of the Constitution intended it to do—to act as a brake on an impetuous executive.

It could see no need for quick action to end a recession which was ending without any help from government.

The Kennedy program was not new. It was merely a rewriting of a lot of legislative proposals which Congress had heard about and worried over during at least two long earlier sessions.

Congress had already done all that its province and powers allowed about underdeveloped countries, which was to pour out tens of billions in foreign aid.

Grappling with brush fires is a matter for the commander-in-chief. Congress can declare a state of war; it cannot prevent a war from breaking out.

And so we find ourselves with a President sadder and, we hope, wiser. At any rate, I imagine a lot of Americans are wiser than they were.

## Adenauer's Hold

By SEBASTIAN HAFFNER

### Christian Democrats Favored To Win Election

BERLIN — The West German election campaign has begun with both Christian Democrats and Social Democrats publishing their election manifestos.

Although polling day does not come until Sept. 17, from now on all German politics will be dominated by the electioneering.

The straw polls of the past few months have been favorable to the governing Christian Democrats, and at their party Congress at Cologne recently they presented a picture of extreme self-assurance bordering on complacency.

All self-criticism was banned from the speeches. So were the anxieties of the Berlin crisis and the many difficulties that have arisen in Germany's relations with her major allies in recent years.

All was for the best in the best of all possible worlds. The party was basking in the glory of unqualified success and asking the electorate for another four years' extension of its mandate almost as of right.

### Adenauer Takes Offensive

Dr. Adenauer repeated his well-tried tactics of 1953 and 1957 of taking the offensive from the beginning. Formerly his theme was that a Social Democratic victory would be a national disaster because of the unsound foreign and defense policies of the opposition.

Now that the Social Democrats have practically taken over the foreign and defense policies of the government, his retort is: "A party that has been wrong for 11 years and now admits it itself cannot be trusted."

The Social Democrats counter-attacked the tacit assumption on which the Christian Democratic campaign rests—that in home and foreign affairs all is well.

They stressed the disappointments over reunification, the loss of trust and sympathy which Germany has suffered abroad in the past year or two, the failure to bring about national unity at home, and they blamed the government for the unifying tussle

about the presidency two years ago, for weakness toward powerful lobbies, public waste and neglect of science and education. On the whole, they took a high moral line and they put together a perhaps slightly over-drawn picture of the weaknesses of Germany's external and internal situation.

Most Germans feel that despite the dangers and disappointments things could be worse from the national point of view, while individually they have never had it so good.

### Succession Issue Muffled

Curiously enough, the question of Dr. Adenauer's succession, which had looked like becoming the chief issue, has so far played no part at all. The Christian Democrats simply treated it as non-existent like every other awkwardness.

The Social Democrats referred to it merely in hints and asides. The chief reason for this is probably the splendid physical performance which Dr. Adenauer gave at the Cologne Party Congress.

He simply did not look as if a succession question would arise in the next four years. He spoke as if old age and death were phenomena that did not concern him, and his looks and demeanor made this all but credible.

Two elements may yet have an unforeseeable influence on the outcome of the campaign. One is the Free Democrats; the other is Premier Khrushchev.

The Free Democrats, Germany's third party, recently have been gaining some public support again. They might conceivably come to hold the balance of voting strength.

Up to now they were expected to return to a coalition with the Christian Democrats after the elections. But now the Christian Democrats, in the elation of anticipated victory, have made it clear that they hope to do without such a coalition and will certainly govern by themselves if they gain an absolute majority once more.

## Obnoxious Remarks

By HAL BOYLE

NEW YORK (AP)—Remarks a baseball umpire gets tired of hearing:

"Kill the umpire!"

"You know what happened to vaudeville? Well, give Blinky McGuire five more years behind the plate, and he'll do the same thing to organized baseball."

"I admit Blinky calls them as he sees them. That's the whole trouble. He don't see very many of them."

"Whaddaya mean it's strike three? The guy's only thrown two pitches so far."

"Oh, he's all right except for one thing—he favors the pitcher."

"There's only one thing I really got against him—he favors the batter every time."

"Don't look now, Blinky, but that big fan over by first base is getting ready to throw another pop bottle. Wonder where he gets them all?"

"We'll be glad to sell you the life insurance coverage you requested, but because of certain inherent risks in your calling, we'll have to ask for a higher premium."

"You didn't have to call that last one so dramatic, Blinky. The TV camera wasn't on you that time."

"Okay, Little Boy Blue, bend down and dust the plate. Papa's going to belt the first one over for a homer. That way you won't get a chance to call one wrong."

"No, Mr. McGuire, I don't find any indication of ulcers. However,

I would like to make a suggestion. One of my associates specializes in psychiatry, and I think it would be a good idea if you would—"

"In your case, Mr. McGuire, I would recommend contact lenses. Then no one would even suspect that—"

"Since it was ladies' day, I went to the game myself. And even though I am your wife, Blinky dear, that third strike you called in the eighth inning looked way off to me."

"Put a mouse in a uniform and give him a little authority and right away he begins to act like a big rat."

"I hear you're writing your autobiography, Blinky. Will it be in Braille?"

# The Doctor Says

By DR. H. T. HYMAN

## Reactions to Anesthesia Unknown

Q—Recently, our 5-year-old boy had to have an operation on his eye. When they gave him ether, his heart stopped. They massaged it and he lived only 16 hours. Would the ether have affected him if his heart was all right? Could our pediatrician have known he had a heart defect before this happened? Because if he knew and had told us we would never have had the operation done. Our other two boys had their tonsils removed and nothing happened. Isn't there some test that can be taken ahead of time to see if one can take ether?

Dr. H. T. Hyman

A—It is the fate of every experienced physician to witness or be party to the tragedy of an unforeseeable death from ether and other inhalant anesthetics, injections of local anesthetics, minor surgical or dental operations and even such seemingly trivial procedures as drawing fluid from chest or abdomen.

THESE DEATHS are not due to heart defects. They cannot be predicted in advance. And they may occur despite all precautions.

For what little consolation there is for all concerned, it must fairly be stated that no one can rightly be blamed in the vast majority of cases.

Note the phrase "the vast ma-

jority of cases." For there is no doubt that, in some instances, these fatalities are preventable and that, by taking extraordinary precautions, their incidence has been considerably reduced.

For example, there are safer anesthetics than ether. The routine use of preanesthetic sedatives lowers the risk. The insistence by most institutions that the patient spend at least one night in the hospital before the contemplated procedure is another safeguard. Recognition of the new specialty of anesthesiology assures patient and surgeon of the presence of a physician who has been especially trained to handle drugs and who is equipped to administer prompt and efficient treatment at the instant of danger.

INDEED, for myself, I have always been as concerned with the choice of the anesthesiologist as with that of the surgeon when any operative procedure was under consideration.

I hope the writer of this letter will not regard this list of precautions in the light of a rebuke. Every precaution might well have been taken without altering the outcome in the slightest degree.

How infinitely more tragic this death would have been if this were an only son. How fortunate that our correspondent has two other boys on whom to lavish her love and affection.

chase on Ohio 8. He was captured after his car cracked up when he lost control of it following the shotgun blasts.

The FBI said he had no chance to use the gun he was carrying as sheriff's deputies from Stark, Carroll and Tuscarawas counties, Canton police and FBI agents moved in on him.

The officers were checking known contacts and associates of the fugitive when they spotted him south of Canton driving a 1956 car with Kentucky license plates. They gave chase on Ohio 8 toward Dover.

Edward E. Hargett, agent in charge of the Cleveland FBI office, said during the chase agents in the car behind Ruip saw him turn, while going at high speed, to fire at them. One of the agents opened fire with a shotgun and Ruip lost control of his car, which was sprayed with pellets.

Ruip escaped Sept. 14 from the workhouse in Akron, where he had been sent on an assault and battery charge. He was captured Jan. 18 in Canton during a search for Frank Cypriya of Akron, who was wanted for assaulting FBI agents in Youngstown. Cypriya later was captured in a gun battle near Massillon and was sentenced to prison two weeks ago.

On Feb. 2, Ruip fled while a group of prisoners was being loaded into a police van for transfer to the Stark County jail from Canton Municipal Court. He was captured March 8 by FBI agents in Pittsburgh.

## NATO

(Continued from Page One)

neva to participate in an East-West conference on Laos.

U.S. Secretary of State Dean Rusk gave the conference a psychological lift Tuesday with a pledge to back up the defense of Western Europe with Polaris nuclear submarines.

Rusk told America's 14 allies in the North Atlantic Treaty Organization that five Polaris submarines would be assigned to the alliance by 1963 and perhaps more later.

The submarines would be under American operations command, but their specific mission would be to provide a retaliatory blow to any Soviet attack on a NATO partner. The subs would be attached to the U.S. 6th Fleet in the Mediterranean.

The U.S. pledge is a modification of the Eisenhower administration's proposal last December that the submarines would be assigned to European defense if the European members of the alliance bought 100 nuclear missiles to be located ashore. The latter feature of the proposal did not arouse enthusiasm because of the expense.

## Inside Labor By Victor Riesel

The last time I spoke to Castro he was wide-eyed and muttering. But apparently he has not lost touch with the practical.

His devotion to Communism has not developed in him a distaste for our capitalist dollars — and it should be known that Cuba still is selling more than \$40 million worth of produce a year in the United States. This business, though not quite as usual, is going on right now, invasion or no invasion, insults or no insults.

His economic chief "Che" Guevara, needs these dollars to keep the island's gasping economy from choking to death. The Soviets are sending him military hardware, not hard rubles.

The Cuban State Trust collects these dollars from some "Americans" through letters of credit placed to Cuba's accounts in Canadian banks.

With these two million, Castro actually is still purchasing some vital machinery in the U.S. and vital livestock in Canada to bolster his regime — not to feed his people.

Despite everything that Castro has come to mean, some U.S. machinery is permitted him by the State Department on the theory that a total embargo now would cause hardships to some international brokers.

THE AMERICAN suppliers of machinery would lose money if they could not complete orders. Castro and Guevara placed here over the last year or so — that's the theory. What about the "hardships" of the Cubans who hit the beaches for freedom. They lost more than money.

Furthermore, some of the \$40 million the Communist Cuban government earns from its sales in America is paid to Canadian ranchers. They have been rolling their livestock along the Eastern Seaboard to West Palm Beach.

There, twice a week — Tuesdays and Thursdays — the cattle have been shipped on the West India Fruit and Steamship Co. ocean ferries.

The overnight ferries were shut down for a few days during the life of the liberty beachheads. But now they've resumed supplying Castro and returning with his money-making produce.

Other Cuban cargo is flown in by his communized companies to Miami.

It is inconceivable that tens of thousands of U.S. citizens do not wander about with a perpetually bitter taste in their mouths. They still are buying Castro's tobacco and vegetables.

Even at this minute Castro's plantations are selling some \$2 million worth of tobacco a month in the U.S. This is a government — well documented — figure.

THE CUBANS are even selling us a synthetic filament made by the Rayonera factory in the Matanzas district. Thus, the State Department permits this neo-Communist competition with our own hard-hit textile industry, which President Kennedy is attempting to aid. Those people at the State Department should check with the White House.

The State Department should check with somebody. As recently as March 10 Castro was permitted to buy live cattle, live

hogs, baby chicks and even hatching eggs from us. These purchases were not made for the benefit of the people of Cuba.

The livestock was being used for breeding purposes, so Castro could equip future collective farms.

If we had not been sending him these animal cargoes, the Russians would have had to supply Cuba. This would have drained the scarce Soviet stocks. It would have put a heavy load on the already overburdened Red bloc merchant fleet.

EARLY IN MARCH someone told the boys at the State Department the facts of barnyard life. Only then did the trade end. But if we had not permitted the Cubans to make money in the U.S. they never would have had enough to pay for the cargoes for their Caribbean communes.

What makes this business as usual between Cuba and some private U.S. brokers even more galling is the fact that our military finds itself in an awkward position in Cuba.

There are some dollars the Pentagon must pay Castro. We rent the Guantanamo Bay base for \$150,000 a week. Also we pay some 3,500 Cuban workers on the base some \$15 million a year in wages. This we have to do in dollars.

But why should private U.S. citizens add to Castro's Communist exchequer? The anti-Communist Cubans who fought Soviet tanks on the beaches can tell you that liberty is dearer than money.

## Butler Township Group Asks Rt. 62 Be Kept Locally

The Butler Township Farm Forum Advisory Council appealed to the Ohio Department of Highways today to relocate Route 62 south of Salem and inside Columbiana County.

A letter drafted by the farm group and signed by 15 members, including Mrs. Orlan Weingart, secretary, was sent to Highway Division Engineer William McKenna, with a copy to Mayor Dean B. Cranmer.

The Farm Advisory Council's letter said:

"We recommend that Rt. 62 be re-routed south of Salem and in Columbiana County. We need a good east-west highway to facilitate and promote transportation in this area. Many resolutions, endorsed by organizations throughout the county, have clearly stated why Rt. 62 should be kept inside Columbiana County. Millions of dollars have been spent on road improvements in various parts of Ohio with both federal and state monies that we residents of Columbiana county helped to produce. Now we learn of a proposed combination Rts. 62, 224 and 14 highway that would bypass our county far to the north."

## Vegetables Au Gratin Are Tasty

Now is the time for all good cooks to come to the aid of their families.

Nutritionists tell us a well planned, balanced diet needs no assist from supplemental vitamins, blood builders, and other major supporters of the television industry. Fresh vegetables are, of course, a major source of minerals and vitamins in the daily diet.

From Sweden comes a vegetable dish, suitable for either leftovers or first time vegetables. In combination with milk, eggs, and cheese, it gives vegetables a new flavor.

2 cups cooked cabbage coarsely

chopped, 2 cups cooked chopped celery, 2 cups cooked snap beans, 2 tomatoes thickly sliced, 2 tablespoons butter, 2 tablespoons flour, 2 cups milk, salt and pepper, 2 egg yolks, 1 cup grated cheddar cheese.

Melt butter in saucepan and stir in flour until well blended. Add milk gradually while stirring and cook over low heat for 10 minutes, stirring occasionally.

Remove from heat and add beaten egg yolks. Return to heat and bring to a boil while stirring. Add half of grated cheese. Re-

move from heat and continue to

stir until sauce is thick and smooth. Season to taste with salt and pepper.

Arrange all vegetables except tomatoes in a well greased, shallow baking dish. Pour sauce over vegetables and arrange slices of tomatoes in a circle around edge of dish.

Sprinkle salt and pepper over tomatoes and sprinkle remaining cheese over entire dish.

Place under broiler or in a very hot oven (500 degrees) for 10 to 15 minutes or until nicely browned. Serve immediately. Serves 6 or 7.

## Take-Along Cookies Are Easy to Bake

If you count baking cookies among your rewarding achievements, you'll enjoy this new bar cookie recipe.

Are you being asked to donate a batch of something sweet to a club, school, or church affair? These Brown Sugar Chews are easy to make, to carry and to eat.

### BROWN SUGAR CHEWS

1½ cups sifted enriched flour, 2 teaspoons baking powder, 1 teaspoon salt, ½ cup shortening, 1½ cups firmly packed dark brown sugar, ½ cup flaked coconut, ¾ cup chopped pecans, 2 eggs, ¼ cup milk, 1 teaspoon vanilla.

Sift together the flour, baking powder, and salt. Cut or rub in shortening until mixture is crumbly. Mix in brown sugar, coconut and pecans.

Beat eggs until thick and ivory-colored; add milk and vanilla and beat enough to combine; add to flour mixture; mix well.

Turn into greased baking pan (9 by 13 by 2 inches) and spread evenly. Bake in moderate (350 degrees) oven 40 to 45 minutes. Cool in pan placed on wire rack about 10 minutes; cut into bars.

Cool bars entirely before removing from pan with a spatula. Store in tightly covered container.

### BAKING NOTE

Every once in a while a new cook asks us about the difference between cake flour and all-purpose or family flour.

Cake flour is made from selected soft or winter wheats and is milled in a special way; it is often called for in cake recipes because it helps to give a delicate product.

All-purpose or family flour is just what the name implies—a blend of wheats that are suitable for general baking and cooking purposes. It is estimated that 80 to 90 per cent of all white family flour produced is now enriched with B vitamins and iron.

Self-rising flour is all-purpose flour to which leavening and salt have been added; self-rising cake flour is cake flour plus leavening and salt.

## 3-County Sheepmen Re-Elect Officers

LISBON — All officers were re-elected at the committee meeting of the Columbiana-Mahoning-Carroll counties sheep meeting last night in the county extension office in Lisbon.

John Raley of Rogers is chairman; Arthur Preston of Bowers-ton vice chairman, and George Simms of East Palestine, secretary treasurer.

A summer meeting was scheduled at the W. A. Morris farm at RD 2, Columbiana.

## Try Pickle Penny Pizza

Like pickles? Most folks do — certainly most teen-agers do. So try this off-beat pizza the next time the young crowd flocks to your house.

### PICKLE PENNY PIZZA

(Makes 6 servings)

2 cups biscuit mix, ½ teaspoon garlic powder, ½ teaspoon dehydrated minced onion, 2/3 cup milk, 1 can (10 ounces) pizza sauce, 1 package (8 oz.) Mozzarella cheese, cut into 12 slices, 6 sweet gherkins, cut in lengthwise slices, 1 frankfurter, sliced.

Combine biscuit mix, garlic powder and onion; mix well. Add milk and stir until dough forms a ball. Turn out onto lightly floured board and knead 10 to 15 times. Roll out to 15-inch circle. Line 12-inch pizza pan with biscuit mixture. Bake in a hot oven (425 degrees F.) 15 minutes.

Pour sauce over pizza. Arrange 6 cheese slices around outer edge of pizza. Arrange remaining cheese slices in a spoke fashion, toward the center.

Top cheese with pickle slices. Arrange frankfurter slices between cheese slices. Bake in a hot oven (425 degrees F.) 15 to 20 minutes.

### CHICKEN PICKLE SPREAD

(Makes About 1½ cups)

1/3 cup sour cream, 2 tablespoons mayonnaise, 1 cup finely chopped cooked chicken, 1/3 cup sweet mixed pickles, salt and pepper to taste, assorted crackers.

Combine cream, mayonnaise, chicken, pickles and salt and pepper; blend well. Spread on crackers. Top with additional chopped pickles, if desired.

## Ham Roll-Ups Are Delicious

Looking for a delicious way to use those leftover bits of ham in the refrigerator? Then try these roll-ups, made with biscuit dough and ground leftover ham. Serve with broccoli

and Hollandaise sauce.

### HAM ROLL-UPS

(Yield: 6 to 8 servings)

2 cups flour, 3 teaspoons baking powder, ½ teaspoon salt, 4 tablespoons shortening, 1 cup milk, 2 cups cooked ham, ground, 4 tablespoons melted butter, 2 tablespoons cream, 2 teaspoons prepared mustard, 1½ tablespoons aromatic bitters.

Sift flour, baking powder and salt together in a mixing bowl. Cut in shortening and add milk. Mix thoroughly. Roll dough out on floured board in a long rectangle.

Mix ground ham with butter, cream, mustard and aromatic bitters. Spread thick layer of ham mixture over dough and roll up like a jelly roll.

Cut roll in slices about 1½ inches thick. Place on a cookie sheet and give each roll a sharp pat to flatten out.

Bake in a hot (450 degrees F.) oven for 20 to 25 minutes. Serve hot with a cheese or cream sauce.

## Bread Pudding Is an Honest Dish

By CECILY BROWNSTONE  
Associated Press Food Editor  
Don't spurn bread pudding. It can be a most delicious dessert. But first find a fine-flavored recipe. One of them, we're happy to say, is right here.

Bread pudding has a long and honorable history. Two recipes for it are in the first cookbook of American authorship published in the United States.

From its beginning, this bread pudding was a simple honest dish. It's remained that way. I don't know how the dessert has escaped the well-known American urge to make startling innovations, but thank heaven it has.

Just one modern change we recommend. Use evaporated milk as the following recipe directs. We're frank to say that we do cherish the flavor of this milk "as is," but in certain custard-type recipes it combines with other ingredients to give different and delectable taste.

Early recipes for bread pudding called for raisins or currants; we use the former. Our flavorings of nutmeg and grated lemon rind are old-fashioned also; the vanilla is a newer addition, but well worthwhile.

What sauce for bread pudding? Some early recipes do not specify; others recommend wine sauce or melted butter and sugar. Then when Fannie Farmer's cookbook arrived at the end of the last century, she favored Vanilla Sauce. We suggest Vanilla Cream.

### RAISIN BREAD PUDDING

1 large can (1 2/3 cups) evaporated milk, 1 1/3 cups water, 2 tablespoons butter or margarine, 2 cups soft bread crumbs (six 1/2-inch slices with crusts removed), 2 eggs, 1/3 cup sugar, salt, 1/2 teaspoon nutmeg, 1/2 teaspoon vanilla, grated rind of 1 lemon, 3/4 cup raisins (rinsed in hot water and drained).

Scald milk and water; remove from heat and stir in butter until melted. Pour over bread crumbs and let stand.

With a fork, beat eggs enough to combine yolks and whites; add sugar, a dash of salt, nutmeg, vanilla and grated lemon rind; at once slowly add hot milk and crumb mixture, stirring constantly and mixing well.

Turn into buttered 1 1/2-quart casserole. Scatter 1/2 cup of the raisins over top — they'll sink. Bake in moderate (350 degrees) oven about 50 minutes or until

knife inserted close to center comes out clean.

Sprinkle remaining raisins over top for garnish. Serve warm with 1 cup light cream mixed with 1/2 teaspoon vanilla. Makes 6 large servings.

Note: If any of the pudding is left over, it may be reheated in a double boiler over a small amount of boiling water.

World's smallest people are the Rambuti pygmies, who live deep in the Ituri forest of the northern Belgian Congo of Africa. These people are not much more than four feet tall.

Hens in the U.S. laid more than five billion eggs during the month of February, 1959, alone.

# White Sox Trip Tribe On Two-Run Homer by Landis

## Indians Get Only 2 Hits Off Score

Jim Perry Loses Four-Hitter On Blow In 8th; Bell Hurls Tonight

CHICAGO (AP) — Cleveland's Jim Perry pitched a four-hitter against Chicago Tuesday night and was great against everybody except Jim Landis—so he lost the game. A two-hitter by Herb Score bested Perry, 4-2.

From the fourth inning to the eighth, Perry was touched for only one hit, a single by Roy Sievers. But Landis won it for the White Sox with a two-run homer in the eighth that broke a 2-2 tie. Landis also drove in a run with a fly ball and hit a double which eventually turned into a run, thus figuring in all the Chicago scoring.

Score held Cleveland hitless until the sixth inning, when Jim Piersall drove a fly to deep center that Landis dove for and barely missed. It went for a triple.

Except for a little wildness—he walked six—Score used his popping fast ball and sharp-breaking curve with aplomb in his initial 1961 start. The former Indian ace is still trying to recover his old form after his famed near-tragic injury.

Johnny Temple got the other Cleveland hit, a single to left in the eighth. Neither of Cleveland's hits figured in the scoring.

Both Cleveland runs were driven across on sacrifice flies by Vic Power.

Manager Jimmie Dykes was unhappy with his team's continued lack of runs. "The two we got were cheap," he said.

Cleveland scored once in the second. Woodie Held walked, went to second on a balk, advanced to third on Willie Kirkland's fly ball and scored on Power's fly to right.

The other run came in the fourth. Piersall and Held walked and again Held advanced to third on a fly ball by Kirkland and scored on a sacrifice fly by Power.

The victory ended a seven-game losing streak for Chicago.

Today was cutdown day for the Tribe, who must get rid of a player to get down to the legal limit.

Cleveland plans to start Gary Bell (0-4) against Bob Shaw (2-1) here tonight to wind up the two-game series.

Cleveland 010 100 000—2 2 2

**QUAKER AT MARYLAND U.** — Ned Chappell, who was captain of the 1959 Salem High football team which won eight games and lost only one, played for the University of Maryland grid squad that nipped the alumni 21-14 Saturday at College Park, Md. Chappell, a freshman, played guard on both offense and defense for next year's respective Maryland U. varsity. Chappell, who now weighs 210 pounds, was a star tackle and linebacker at Salem High for three years. He also played in the annual Ohio North-South game at Canton. He is a son of Mr. and Mrs. Robert C. Chappell of 911 Franklin St.

### Painter Out for Season

## Leetonia Slips Past North Lima, 58-51

The Leetonia High track squad learned yesterday afternoon that their ace, Eric Painter, will be out of action for the rest of the season, then went out and almost got beaten by an underdog North Lima team which extended the Bears before bowing 58-51.

The meet, which was run on a sloppy track at Leetonia, went to the Bears because of their superiority in the field events. North Lima took seven firsts compared to six for Leetonia. The Bears won the high jump, broad jump, shot put, discus and both hurdles. There was no pole vault competition.

**PAINTER**, who has the best time in the county this year in the 880-yard run, learned that the tibia bone just above his ankle was chipped when he slipped in some loose cinders after winning a race in a dual meet with United late last month.

### U.S. Cagers Return From Triumphant Tour

STOCKHOLM (AP)—The United States' men's and women's basketball teams head for home today via Copenhagen, after winding up a triumphant tour with two romping exhibition victories over Swedish clubs.

Although Al - America Jerry Lucas of Ohio State and former Iowa State ace Gary Thompson were out with minor ailments, the men's team romped to a 107-75 victory over the Stockholm All-Stars Tuesday night after the American girls had routed the Swedish national team, 80-30.

It was the ninth victory without a loss for the U.S. men, made up primarily of the National AAU champion Cleveland Pipers. They won eight straight games from Russian teams during their tour of the Soviet Union, including two from the Soviet team that went on to Belgrade last weekend and captured its third straight European championship.

Lucas, the top U.S. collegiate player who dropped out of school this semester to make the tour, reinjured a leg in the last game in Russia at Leningrad and was held out of the Stockholm exhibition as a precautionary measure. Thompson has a heavy cold.

## Majors Shuffle Player Rosters

Teams Must Cut To 25 by Midnight

By The Associated Press  
Cutdown time tolls at midnight for the major league rookie with too little talent and the veteran with too much age.

For those players, and others facing a trip to the minors or their outright release, the remaining hours before tonight's deadline will be filled with anxiety as club officials huddle over scouting reports before making final decisions.

Before midnight all 18 major league clubs—with the exception of the Washington Senators and Chicago White Sox — must be down to the regular-season player limit of 25 players. They have been carrying 28 since opening day.

The new Senators and White Sox, who began the season a day earlier than the other clubs in a special presidential opener, had to reach the player limit by Tuesday midnight.

The White Sox got down to legal size by giving catcher Joe Ginsberg his unconditional release. The Senators cut outfielder Joe Hicks, second baseman Chester Boak, and pitcher Rudy Hernandez.

Hicks and Hernandez were optioned to Indianapolis of the American Association and Boak was sent to Syracuse of the International League. All are on 24-hour recall.

The Boston Red Sox also got down to the limit 24 hours early when they optioned outfielder Lou Clinton to Seattle of the Pacific Coast League.

In other significant moves Tuesday, Philadelphia shipped outfielder Tony Curry to Buffalo of the International League and Cleveland farmed out strapping Walt Bond, a promising power hitter.

The Phils also announced that relief pitcher Jack Meyer had retired because of a shoulder ailment.

The Pittsburgh Pirates pared their roster by sending pitcher Jim Umbricht and outfielder Roman Mejias to Columbus of the International League and Kansas City chopped off pitcher Ken Johnson by selling him to Toronto of the International for \$20,000.

The Milwaukee Braves put left-handed pitcher George Brunet on the disabled list.

## Jim Gentile Blasts Two Consecutive Grand Slams

By ED WILKS

Associated Press Sports Writer  
Jim Gentile set a major league record by hitting consecutive grand slam home runs as Baltimore whipped Minnesota 13-5 Tuesday, and left-hander Herb Score pitched a two-hitter as the Chicago White Sox beat Cleveland 4-2 and escaped the American League cellar after losing seven in a row.

Detroit gained a three-game lead although splitting a two-night doubleheader with Washington, winning 7-2, then losing 5-4. Kansas City beat second place New York 5-4, and Los Angeles defeated Boston 8-7.

Gentile, 26, a lefty hitter who walloped 21 home runs last season after his conditional purchase from the Dodgers' farm at St. Paul, returned to Metropolitan Stadium at St. Paul-Minneapolis and hit his slams in the first and second innings. They came off loser Pete Ramos (2-2) and reliever Paul Giel.

The two shots, both 410-foot blasts, gave Gentile a major league record with eight RBI in two innings. He finished with nine runs batted in, taking the AL lead with 30, and tied Mickey Mantle of the Yankees for the home run lead with nine.

Ron Hansen also homered for the Biris, who had 11 hits, eight for extra bases. Bob Allison, belting two, Hal Naragon and Har- the Twins off winner Chuck Estrada (2-1) and Gordon Jones.

Southpaw Don Mossi won his fourth without defeat for the Tigers with a four-hitter. He gave up the runs on consecutive homers by Willie Tasby and Gene Green in the fourth inning. Joe McClain was the loser for a 3-2 record.

Tasby also homered in the second game for the Senators against with Gene Woodling, whose sev-

en-

enth-inning shot wrapped it up.

Bennie Daniels (1-3) won his first in the AL with Dave Sisler's relief help. Paul Foytack (1-2) was the loser.

The A's, held to one run and four hits for seven innings, chased Whitey Ford and beat reliever Luis Arroyo (1-1) with four runs in the eighth. Singles by pinch-hitter Don Larsen and Hank Bauer, both ex-Yanks, and an infield out brought them home. Ray Herbert (2-1) won it with a no-hit mopup by Jim Archer in the ninth. Tony Kubek and Bill Skowron homered for the Yankees.

The Angels won four in a row for the first time with an un-

earned run in the ninth on an error by rookie Carl Yastrzemski of the Red Sox. Boston, twice coming from behind and blowing a 4-2 lead in between, had tied it 7-all in the ninth on a two-run double by Jim Pagliaroni. Eli Grba (3-2) won it and Ted Wills (1-1) lost it, both in relief.

Starting pitcher Jerry Casale, Leon Wagner, Earl Averill and Gene Leek homered for the first seven runs by the Angels, who have belted 26 in 13 games at Wrigley Field. Yastrzemski's first major league home run made it a total of 42—an average of four a game—for the cozy home of the Angels.

## Dodgers Win, Take Over 2nd Place

# Pirates Chase Sanford in 9-6 Victory

By The Associated Press  
The Pittsburgh Pirates chased Jack Sanford in a three-run first inning and beat San Francisco 9-6 Tuesday night, ending the Giants' winning streak at four and slicing their National League lead to one game. The Los Angeles Dodgers took over second place with a 5-2 victory at Philadelphia in a game called after 5½ innings by rain, and Milwaukee belted the Chicago Cubs 8-5.

The other NL game, St. Louis at Cincinnati, was rained out. Sanford was tagged for five hits and gave up two walks in the "Bucs' big first inning. Roberto Clemente drove in the Pirates' last four runs, hitting a two-run single off reliever Jim Duffalo

for a clinching 7-0 bulge in the second inning and then banging a two-run homer off Ed Fisher in the seventh.

Southpaw Harvey Haddix won his second without defeat, but gave up a solo homer by Ed Bailey and needed Clem Labine's relief help in the seventh.

The Dodgers sent the Phillies to their eighth straight defeat behind the four-hit pitching of Don Drysdale (3-2). Art Mahaffey (2-3) was the loser, giving up home runs by Ron Fairly and Norm Larker as the Dodgers scored in each of the first five innings.

Joe Adcock, who hit two homers, and Frank Bolling each drove in three runs as the Braves ended their losing slump at three.

Bob Buhl, making his fifth start, won his first against two defeats with a four-hitter, two of them homers by Ernie Banks that drove in four runs. Glen Hobbie (1-4) lost his third in a row when the Braves broke a 3-3 tie in the seventh.

Outfielder Frank Thomas, traded to the Braves by the Cubs for Mel Roach earlier in the day, helped send Chicago to a fifth straight loss with a run scoring double.

## OUT OF DOORS with Field & Stream

Fishing has not really been good as of present writing; however, there's nothing wrong that a few days of warm sunshine can't cure.

The best fishing I have heard about occurred at Westville Lake over the weekend. Two Canton fishermen, Don Wilson and Sloan Renner, landed eight largemouth bass from 2 lbs. to 6 lbs., 1 oz. That means about 25 lbs. in weight altogether.

Bob Kotzbacher, 12, joined the "big boys" when he hooked on to a bass 4 lbs. 9 oz. Jim King of Alliance took home a 5 lb. 9 oz. bass. Many other fishermen took home keepers that cannot make the headlines.

The spring morels, have been finding them more abundant this year than in the past several years. The wet weather connected with the few warm days have season for gathering mushrooms made conditions ideal. The peak season for gathering mushrooms is now on and should last until June.

Three fellows, friends of mine, gathered about a gallon of them, and proceeded to have a steak fry with mushrooms.

They did not cut each one open and look for bugs and worms, but merely washed them off and placed them in a skillet of butter. They're doing all right but without a doubt they ate bugs, worms and all.

## PGA Restrictive Clause Under Fire

LOS ANGELES (AP) — State Atty. Gen. Stanley Mosk says the Professional Golfers Association open can't be held in California so long as non-whites are barred.

The title event is scheduled for July at the Brentwood Country Club.

The Los Angeles Junior Chamber of Commerce asked the PGA last week to cancel its contract as sponsor of the event if Negroes were excluded from the contest.

Mosk said his office would act to force the PGA to eliminate the restrictive clause or "cease its activities within this state."

## Tigers Win 71½-46½

# United Thinclads Bow to Wellsville

Despite double victories by Paul DeVille and Jim Sturgeon, the United High track team went down to a 71½-46½ defeat at the hands of the Wellsville Tigers yesterday afternoon on the Wellsville track.

The speedy DeVille captured the 100-yard dash in 10.7 and came through in the 440 with a fine 54.6.

Sturgeon racked up victories in the mile, 5:01.6; and in the half mile, 2:19.4.

In all, United won six of the 13 events. Other firsts for the Eagles came in the mile relay and the broad jump. DeVille teamed up with Don Mayer, Blythe and Sid Isenschmid to win the mile relay in 3:51.8.

Bruce Hoyt copped the broad jump for the Eagles with a leap of 17.4.

Bill Hickman of Wellsville turned in a fine 22.5 in winning the 180-yard hurdle. The Tigers' star jumper, Bob Kiggins, cleared 5-8 in winning that event yesterday. United's Bill Letherberry tied for second with his jump of 5-6.

Here are the results of yesterday's meet:

## Machen Offers Deal To Patterson

SAN JOSE, Calif. (AP) — Sid Flaherty, manager of second-ranked heavyweight contender Eddie Machen, Tuesday challenged world champion Floyd Patterson for a winner-take-all fight.

Patterson in a news conference last Friday said that Machen and England's Henry Cooper did not figure in his 1961 title defense plans.

Patterson repeatedly has said he will not fight Sonny Liston, the No. 1 ranked challenger, until Liston "is clean" of alleged underworld connections.

Flaherty was in New York last week, attempting, he said, to get his boy into the picture.

"We will fight Floyd in any state where a winner-take-all arrangement is possible. We are willing to let D'Amato select an associate manager to work with me... also he can pick a man to work in Machen's corner the night of the fight."

"And in the meantime should my presence as Machen's manager prevent Eddie from getting a shot, I will gladly follow the same procedure as Liston's manager, withdraw if necessary," Sid added.

Machen outpointed Mike DeJohn in nearby San Francisco in his last start, a 10-round, and lost to Liston in 12 rounds by decision last September.

It was Machen's one-round knockout loss to Ingemar Johansson in Sweden in 1958 that vaulted the Swede into a dramatic three-bout series with Patterson.

A FEW BLUEGILLS, bullheads, perch and crappies are being taken at Lake Guilford. At Zepernick Lake, the bluegills are not active to any degree although a few are caught.

Some large stringers of bullheads are being taken by anglers lucky enough to drop their worms in the right spot while the fisherman next to him doesn't get a nibble. Hard to explain. A few of last year's chain pickerel stocked at Zepernick's are now about 7 in. long but too little to provide any excitement.

The chain pickerel stocked two years ago are now about 15 in. in length. Recently, 3,000 chain pickerel fry were stocked in Ruff Pond on the Zepernick area. Pickerel do very well in a small body of water so we will know more about them in a few years.

FISHERMEN at Berlin Lake are taking home stringers of those 10 and 11 in. chubby bass, using night crawlers. Walleyes and crappies are biting at Lake Milton.

If you intend to fish these areas you better get there soon before the speed boats take over.

Incidentally, I am informed that since 3½ h.p. motors are going to be allowed on Lake Guilford, these small motors can be "souped-up" where they can do 25 m.p.h. with a light boat built for least resistance.

In that case it is my opinion that motor boating should be stopped about as soon as it begins.

One thing, there'll be no water-skiing as you are not allowed. I hope these motors will be used intelligently, for fishing purposes or simply a little ride on the lake.

## Braves Trade Mel Roach To Cubs for Frank Thomas

MILWAUKEE (AP) — The Milwaukee Braves hoped their two-year search for a top-flight left-fielder was ended today with the acquisition of hard-hitting veteran Frank Thomas.

The Braves turned to the Chicago Cubs to fill one of their big holes and obtained Thomas Tuesday in a straight player deal for Mel Roach, an infielder converted to a fly-chaser in left by Milwaukee.

A couple of hours later, the two players exchanged uniforms. Thomas donning Roach's No. 12

ANSWERS YOUR PROBLEMS

Dear Ann Landers: I used to think your column was only for women but I see almost as many letters from men so I decided to write for an opinion.

I've been married for nine years to a woman who still wears a Phi Beta Kappa key around her neck. It wouldn't be so bad, except her neck is usually dirty.

Our home was brand new when we moved into it. The furniture

was lovely. Now the place looks like a barn. She never has anything repaired, replaced, recovered or cleaned.

She says housework is for horses. In the meantime, the dishes are washed with the same rag she uses on the floor. Then she leaves the rag wadded up in the corner of the sink. I told her she can take a job downtown and hire a housekeeper but she

What can I do? — STUCK.

Dear Stuck: If you can possibly afford it, hire a housekeeper or a day woman. Tell Edna Ferber "the dirt may not bother HER but you're tired of looking at it."

Give the housekeeper permission to have the drapes cleaned, the furniture shampooed and do whatever needs to be done to keep the place up. There's no reason why you should have to live like a pig just because your wife is a slob.

From Clothes Crazy  
Dear Ann: Our 14-year-old

daughter is clothes crazy. She refuses to go to school wearing the same outfit within any given week. Every morning she's on the phone with girl friends, saying: "What are you wearing today?"

Lately she has started to exchange skirts, sweaters and blouses with her friends. She has a closet full of clothes but claims she doesn't have enough variety.

When I ask her about certain skirts and dresses she says they are too small, too long or too something else.

Please tell me what to do before I lose my temper and send her to a girls' school in a uniform. — S.N.

Dear S.N.: Most girls go through such a stage but your daughter is overdoing it.

Devote an evening to her wardrobe. Let her model everything, then decide what is "too small, too long . . . etc." It could be she has a point. Put an end to the borrowing. Insist that she make do with what she has.

The following letter may be a bit of a consolation.

## To Primitive Urge

Dear Ann: Our daughter will soon be 15 and we can't get her out of the trees long enough to get a dress on her. I'd be so happy if she'd go downtown and buy some clothes. But she says "I have enough" and back she goes into her jeans.

She is completely without taste when it comes to getting herself together. She'd wear a pair of sneakers with a satin dinner dress if I didn't tell her it wasn't correct.

I don't want her to pay TOO much attention to clothes but how can I get her to look presentable? — DISTRESSED . . . . .

Dear Distressed: If a girl 15 doesn't know that sneakers don't go with satin you're fighting a difficult battle. Tell her you don't expect her to be a clothes

horse; just a nicely tailored filly, will do.

Compliment her when she looks nice but don't nag when she doesn't. She may be rebelling against you, Mom.

Ann Landers will be glad to help you with your problems. Send them to her in care of The Salem News, enclosing a stamped, self-addressed envelope.
